

Dan is currently battling lung cancer which quickly spread just after being diagnosed. As a result Dan and his wife Nan need our help. Dan has worked for many years to financially support his family while Nan has been an incredibly helpful mom and grandmother watching their two grandchildren daily. We are all gathering to help raise money to support Dan and his family get through these difficult times as he is unable to work through treatments and between the cost of health insurance and care, ends are tough to meet.
